

AUGUSTO GABOS FERREIRA

Technical Trainer & Content Developer

New Jersey, USA | augustogabos@gmail.com | [linkedin.com/in/augustogabos](https://www.linkedin.com/in/augustogabos) | topicotreinamentos.com.br

PROFESSIONAL SUMMARY

Technical Trainer and Content Developer with 3 years of experience creating and delivering comprehensive cloud computing, Data, and DevOps training programs. I specialized in full-cycle course development from content validation through live instruction. Proven track record training 700+ professionals with strong focus on certification preparation and hands-on learning. 11 active cloud certifications across GCP and Azure platforms.

PROFESSIONAL EXPERIENCE

Technical Trainer & Data Engineer

BlueShift Brasil | Nov 2024 - Present | Remote

- Led Data Engineering and Data Analytics training track for 200-person government cloud certification program (SERPRO)
- Created 14 comprehensive study guides and conducted daily 4-hour live mentoring sessions with hands-on labs
- Built and managed Moodle LMS platform with custom learning paths, assessments, and progress tracking
- Achieved 106 of 200 program completions; \$175k project value (BlueShift's GCP Team first training services contract)

Cloud & Data Technical Instructor

Fundação FAT (Qualifica SP Program) | Aug 2022 - Jan 2025 | Remote

- Trained 600+ students across 10+ cohorts in cloud computing fundamentals, SQL, and Generative AI
- Created 200-page Cloud Computing Fundamentals textbook from scratch, adopted by 8 other instructors statewide
- Delivered 80-hour comprehensive courses combining theory and hands-on practice

DevOps Engineer

Hexagon Mining | Jan 2024 - Nov 2024 | Remote

- Supported DevOps operations for mining solutions within global team
- Worked with Docker, Kubernetes, CI/CD pipelines (Bamboo, TeamCity), and legacy build systems

DevOps Engineer

BlueShift Brasil | Dec 2022 - Jan 2024 | Remote

- Created CI/CD processes for Azure Synapse and Data Factory with automated deployment using PowerShell and ARM templates
- Migrated strategic Azure IoT product to GCP as microservices architecture on Kubernetes

EDUCATION

Bachelor of Science in Computer Information Systems | Saint Leo University, Florida, USA | 2023 - Expected 2027

CERTIFICATIONS

Google Cloud Platform (7): Professional Cloud Architect, Professional Data Engineer, Professional Cloud Developer, Associate Cloud Engineer, Associate Data Practitioner, Cloud Digital Leader, Generative AI Leader

Microsoft Azure (2): Azure Fundamentals, Azure Data Fundamentals

Additional: FinOps Certified Practitioner, Astronomer Certification for Apache Airflow Fundamentals

TECHNICAL SKILLS

Training & Content Development: Instructor-Led Training, Curriculum Development, Content Creation, Moodle LMS, Assessment Design, Video Production, Technical Documentation

Cloud & DevOps: Google Cloud Platform, Microsoft Azure, AWS, Oracle OCI, Kubernetes, VM, Docker, CI/CD Pipelines, Infrastructure as Code, Linux Systems

Tools & Languages: PowerShell, Python, SQL, Azure DevOps, GitLAB CI, Terraform, Apache Airflow, Prometheus, Grafana, TeamCity, Bamboo, Jira, JFrog Artifactory
